

# Alien Bird Decision Support System

PIERC Project Leader: Thane K. Pratt, Ph.D.

Mitred Conure, recently established in Hawaii.

## Objectives:

- ☆ Develop pilot decision support system for screening birds species prior to importation to Hawai`i
- ☆ DSS examines species for harm to ecosystems and agriculture

## Accomplishments:

- ☆ Database constructed
- ☆ Database populated with information on parrots and finches
- ☆ Avian Species Screening and Management Tool: a system for querying the database

## Significance:

- ☆ Will assist Hawai`i Dept of Agriculture to permit entry of relatively safe species and deny harmful ones
